Dear New Homeowner,

It was a pleasure speaking with you regarding your interest in obtaining a construction loan. With over 30 years of experience in the construction loan industry, we utilize only the lenders with the best rates and programs available.

Please complete and return all forms along with the following items which are necessary for pre-approval:

1. Complete the standard loan application including, assets, liabilities, real estate etc.
2. Latest 1 year signed tax returns (all schedules) or W'2 each.
3. Description of project form.

Please fax, mail or email to us the above package and will begin working on your pre-qualification immediately.

We do not pull your credit report at this point, we only pull credit after you decide to work us.

Once we complete the pre-approval process (approximately 24 hours), we will provide you with a pre-approval and a total cost of project.

Should you have any questions, please don't hesitate to contact me.
